DBMSL**

**PRACTICAL\_NO. 8**

**1. Basic operations (CRUD operation) on some NoSQL databases like MongoDB, Cassandra Graph, Database (NEO4j).**

```
test> // Insert a document into a collection

test> db.collectionName.insertOne({ key: "value" });
{
  acknowledged: true,
  insertedId: ObjectId("651458b47bdaa002827589c5")
}
test> // Retrieve documents from a collection

test> db.collectionName.find({ key: "value" });
[ { _id: ObjectId("651458b47bdaa002827589c5"), key: 'value' } ]
```
